

Ken DeJarnette, CISSP, CIPP Principal Deloitte & Touche LLP

Ken DeJarnette is a Deloitte & Touche LLP Principal, specializing in the areas of privacy, data protection, security and IT risk management. In addition to holding a law degree, Ken is a Certified Information Privacy Professional (CIPP) and Certified Information Systems Security Professional (CISSP).

Ken has over twenty-five years experience and has led numerous projects for global entities involving the design, assessment, development and implementation of risk management, data protection and compliance programs based on regulatory requirements like GLBA, Red Flags and the EU Data Protection Directive, the APEC Privacy Framework, and private sector programs and industry standards like GAPP, ISO and the PCI DSS. Ken regularly consults on issues associated with cross-border data flows, privacy and data protection regulatory requirements, and incidents involving the loss or unauthorized access of PII.

Ken is also a member of several organizations, including the American Bar Association's Information Security Committee (where he is listed as a contributor to the development of the PKI Assessment Guidelines), and the Privacy and Computer Crimes Committee (where he was the vice-chair for the development of the International Guide to Privacy and co-chair of the Enterprise Security Program Workshop Working Group), the Information Systems Audit and Control Association, and the International Association of Privacy Professionals. Ken speaks and writes frequently, including co-authoring the article A Matter of Trust.
