

**UNDERSTANDING AND MANAGING YOUR THREAT LANDSCAPE**

**ERIC KURNIE**

SVP Group Information Security Officer, Wells Fargo Bank

CYBERSECURITY ESSENTIALS – E11

**Session Abstract**

Don't get distracted by the exploit of the week. Understand your attackers so you can invest your time and money defending against the threats you're likely to confront. This session will explore different threat actors, motivations and attack methods so you can better understand where to focus your defenses.

**Target Audience**

Anyone that has anything to do with enterprise information technology – business as well as technical professionals – from the entry-level analyst to the most seasoned experienced executive.

**Speaker Bio**

Senior Vice President and Group Information Security Officer for Wells Fargo's Corporate Staff Group, Eric Kurnie provides leadership and oversight in all areas of information security for the staff functions. In this role Eric ensures key technology initiatives are solving business needs while managing cyber security risks.

Eric brings with him more than 25 years of broad technology experience in building and managing highly available, secure systems and platforms. He has helped bring internet banking and financial services to customers since Wells Fargo became the first bank online. Prior to joining Wells Fargo, Eric was a security and Internet consultant to a variety of Fortune 500 companies and advised multiple non-profit organizations. He holds a Bachelor of Arts degree in computer science from the University of California at Berkeley.
