Evolving IT Audit: Are the Silos Imploding?

Kendall Tieck
Vice President and Head of Internal Audit
Workday, Inc.
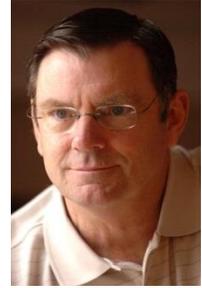

Professional Techniques – T12

Session Abstract

Legacy approaches have struggled to effectively integrate audit teams: Operational, Finance, Compliance and IT Audit.   How can we think innovatively and reinvent the audit profession to deliver value to the organization?   Will IT Auditor's lead the way? What does that mean for the IT auditor's career path and professional development? How do Internal Audit functions react to the evolving risk landscape that further support the evolution of functional audit integration?

This session will identify several megatrends and the potential implications from a variety of perspectives: Profession, career, organization, function and personal development.

Are you prepared for the future? Will you react or… lead and innovate?

Target Audience

This session is appropriate for all levels.

Speaker Bio

Kendall Tieck is Vice President and Head of Internal Audit at Workday, Inc., a leading provider of enterprise cloud-based applications for financial management, human capital management (HCM), payroll, time tracking, procurement, and employee expense management.   He joined Workday in 2013 to create, establish and evolve the internal audit function.

Kendall's career has spanned technology and financial services industries including engagements with Wells Fargo Bank, Bank of America, Microsoft and eBay. He has held senior positions in technology, risk management, and internal audit. Prior to joining Workday, Kendall was the Head of IT Audit at eBay.   During his tenure at Microsoft he was an Audit Director with responsibility for the providing audit services to the core lines of business.

In addition to Kendall's extensive experience in corporate internal audit, he has contributed significantly to Enterprise Risk Management, investigations, professional practices, policy governance and data analytic programs. He is a member of the Information Security Audit & Control Association (ISACA) and the Institute of Internal Auditors (IIA).   Kendall is a graduate of Whitman College.
