

Premium Secure Checks feature state-of-the art holograms!

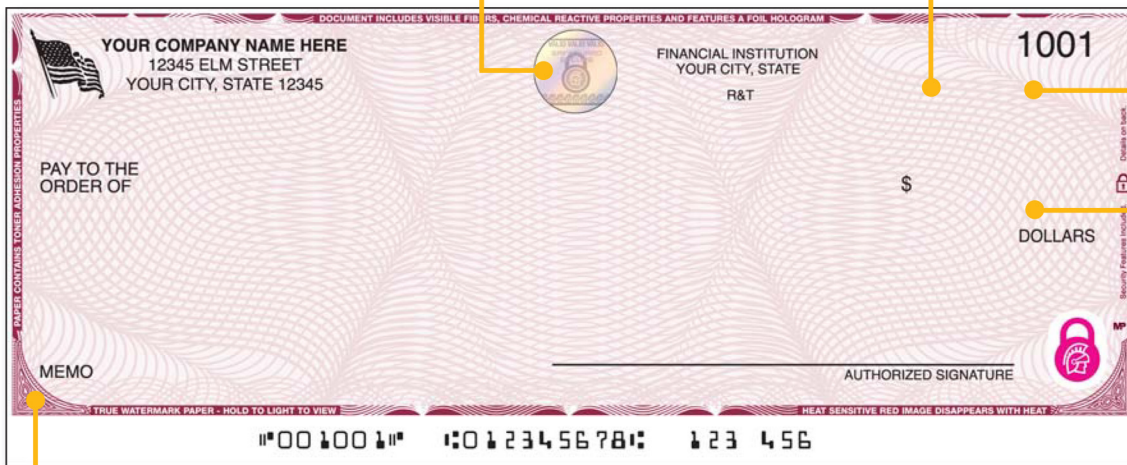

22
Security Features!

Foil Hologram

Our multicolored, dimensional foil includes *seven embedded security features* and cannot be reproduced by copiers or scanners.

Toner Adhesion

Chemistry in paper bonds laser toner to paper fibers with heat. Any damage is visible if toner is scraped or lifted.

High-Security Background Pattern

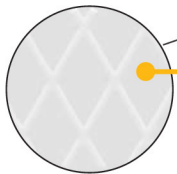

Complex pattern of lines and curves is a strong deterrent to cut-and-paste alteration attempts.

Visible Fibers

Fibers randomly embedded in the paper that can be seen with the naked eye.

High-Resolution Border Elements

Intricately designed fine lines that are difficult to reproduce with accompanying text that notifies check handler of security features.

True Watermark

Pressed into paper during manufacturing, watermark can be seen by holding the check up to a light source. Cannot be reproduced by copiers or scanners.

Chemical-Wash Detection Area

Speckling or stains in this lock area indicate chemical alteration attempts.

Laid Line Backer

Lines of varying width and spacing deter cut-and-paste alteration attempts.

ALSO INCLUDES THESE SECURITY FEATURES:

- Chemical sensitive paper
- Consecutive numbering
- Invisible fluorescent fibers
- Microprinted borders
- Padlock icon
- Security warning box
- Thermo-chromic ink
- Warning border

Doing More to Reduce the Risk of Fraud!

Check Ordering Protection

- 1 Password Protection**
If you'd like to establish a password to secure order entry, you can!
- 2 Order Authentication**
All check orders are screened for common fraud risks.
- 3 Order Confirmation**
You can choose to be notified when a check order for your company is placed.
